## ***MCA 2023 International Management Control Conference Call for papers***

The 12<sup>th</sup> International Management Control Conference will take place at Durham University Business School, Durham, UK on 20-21<sup>st</sup> June 2023, with a doctoral colloquium on 19<sup>th</sup> June.

Papers are invited on any aspect of management control or performance management in public, private or third sector organizations. Examples include:

- Conceptual frameworks for management control
- Managerial and organisational performance
- Risk and resilience as part of management accounting/control
- Public sector issues and management accounting/control
- Data analytics in organisational control and management accounting

Plenary speakers will include Professors:

- David Brown (Sydney, Australia)
- Jim Haslam (Durham, UK)
- Reinald Minnaar (Nyenrode, Netherlands)
- Martin Quinn (Queen's University, Belfast, UK)

Extended abstracts (see below) or full **papers** should be submitted to the scientific committee via the MCA website [www.managementcontrolassociation.ac.uk](http://www.managementcontrolassociation.ac.uk) by **31<sup>st</sup> January 2023**: following the links to Conference 2023 and paper submission. The link will open by October 2022. Decisions will be sent out by 28<sup>th</sup> February 2023. The abstract file name should be in the format: **abstracttheauthorsurname.docx** (or pdf) and the full paper: **fullpapertheauthorsurname.docx** (or pdf).

Extended abstracts should be not more than 800 words, single line spaced. The title of the paper should be at the top of the page, with keywords, the author(s) name, affiliation, and contact details at the end. The abstract should address:

1. What debate are you entering? - identify the background to the paper, previous research (with key references) and the issue(s) you are investigating.
2. What is your argument? - identify clearly what you are contributing to the debate.
3. What evidence supports your argument? - summarise the results of empirical research or source of evidence to substantiate the claims you are making, and summarise how this data has been collected and analysed.
4. What are your conclusions? – identify implications for theory and/or practice.

**30<sup>th</sup> April 2023** is the deadline for full papers.

**Scientific Committee:** Professors Elaine Harris, Lisa Jack and Laurence Ferry

Please note that participants will be required to pay for transport to Durham University Business School, Durham and for accommodation. Further details on the program, location, etc. will be available on the website at a later date.
